

Modern Application Development 1

Project: **Quantified Self**

Author

Name: Sanjeev Singh

Roll : 21f1004331

Email: 21f1004331@student.onlinedegree.iitm.ac.in

Current State of the project:

- Flask has been properly implemented and runs successfully.
 - Overall design of the web app is implemented with Bootstrap 5.1.
 - SQLite and its appropriate model are implemented and connected to flask.
 - Database and required tables are created. Only few records have been added for development purpose.
- User Login Functionality
 - User is redirected to the welcome page/ dashboard after login
- Dashboard:
 - Displaying list of trackers, Timestamp of last review, value on tracker
 - Action dropdown buttons are created but not implemented in the backend.
 - Add/ log into the tracker is also not yet implemented.

Features under development:

- Tracker Management
 - Edit and delete remains
- Logging
 - CRUD
 - Trendline
- Frontend/ backend validations
